Melbourne, FL Regional...Biggest and Best Yet!

On the weekend of April 3rd, 4th, and 5th, a large number of Berlin Brats descended on the home of Pat (Martel) Little, (co-class contact of '72), in Melbourne, FL. What started out as a "regular regional" turned into a weekend long affair! Instead of just a luncheon, a

"The classes of '48 through '79 were represented. What a weekend!"

BBQ, or a diner at some restaurant, Pat ended up inviting us all down for an entire weekend!

It soon became obvious that more than just those Brats within a two-hour drive from Melbourne wanted to attend. Pat, ever the hostess, organized a spaghetti dinner in her home that Friday evening followed by a little music and dancing. On Saturday afternoon, Pat hosted a BBQ at her mother's lake-side property which was followed by a little line-dancing later that

evening. On Sunday, Pat served a hearty breakfast for those who were able to stop by before heading home.

In all, 58 people attended! The classes of '48 through '79 were represented. What a weekend! We even had seven parents who joined us.

Pictures of this regional can be found on the following page and on our website. We would like to extend a very big "THANK YOU" to Pat, her husband Roger, and her mother for allowing all of us to descend on them from Washington state, California, Colorado, Texas, Iowa, Maryland, Virginia, New York, Massachusetts, North Carolina, South Carolina, Georgia, (and yes, we even had some Florida attendees) for this fun filled weekend. It's no wonder many are referring to this weekend as a REUNION!

Four Brats went beyond the call of duty and added a special touch to the weekend. From the class of '78, Jim McLean brought his professional sound system to the Saturday afternoon BBQ. His music added a special touch to the afternoon and he even managed to pull "Build Me Up Buttercup" from his

CLASSES '48 THROUGH '79

collection for a singing trio.

Ric Oates, class of '69, designed and had printed maroon and white t-shirts memorializing the weekend. Sandi (Hoosack) Trader ('70) who drove all the way from Virginia Beach with her mom, (I'm sure many of you remember Mrs. Hoosack, a Brat in her own right) and sister, brought maroon and white monogrammed cold drink "cozies" for our drinks. Debbie (Hoosack) Jones ('72) brought us "currywurst" and broachen"...her own recipe, but it sure tasted like the REAL THING!

Thanks again to everyone who made the weekend a HUGE success!

The BAHS Influence...by John Freeman, class of '71

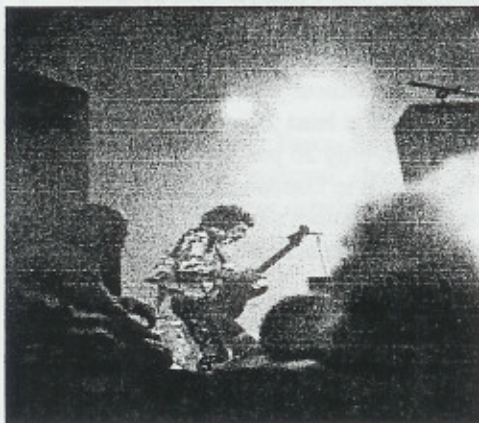

Whenever I'm shooting baskets in the driveway (it's my thinking time), I occasionally reflect on how crucial high school was in steering me toward my profession. Twenty-seven years ago, who would've thought taking photos for the BAHS yearbook and newspaper would lead to my job as an associate professor of photojournalism at the University of Florida?

My inspiration and support came from many people, but right after my parents, I'd have to credit Mrs. Judy Belt. She taught me (and others) more than typing or bookkeeping. Mrs. Belt got me involved at the *Berlin Observer* through her cooperative work-experience program.

I remember moaning about having to work six hours a week to get three units of credit. My dad said, "Why don't you wait and see how it goes before complaining?" Of course, once I was at the *Observer*, I couldn't stay away. I covered AYA football games, the Volksfest, change of command ceremonies, and concerts. My father loaned me his camera for a Jimi Hendrix concert, and I got a published photo I'm still proud of today.

Jimi Hendrix in concert...

Other Berliners had an influence before the *Observer*. Classmate Ken Cousins invited me over one snowy day during a Christmas break (1969?) and showed me the magic of developing pictures. His father had a home darkroom and probably worked as a spy for the Army. Bear Facts editor Steve Reisler and his irrelevant brand of humor added greatly to my understanding of the power of the press. I don't know if anyone else appreciated our sarcastic and sardonic wit, but geez, it was fun to write.

I remember being yearbook editor briefly, and wanting to sell advertising and change the format, but I was quickly fired after suggesting Mrs. Pietsch was too traditional an adviser. My editorial to Bear Facts didn't make it past the "censor" (Mr. Locher?), so I protested by not having my picture in the yearbook that year (1971). Replacement editor Toni Yarlborough did let me write the farewell.

I enjoyed having access to a darkroom in a closet on the top floor of BAHS and cranked out a ton of 8" x 10" prints from football games for 50 cents a piece. Later on, the Army hobby labs at McNair and Andrew Barracks became my home away from home. I eventually set up a darkroom in our apartment at 10 Taylorstrasse, using smelly but cheap chemicals bought in the East. A highlight of my final summer in Berlin was working full-time at the *Observer*.

After four years at the University of Missouri School of Jour-

nalism and internships at newspapers in Phoenix and West Palm Beach, I settled into six years at the newspaper in Wichita, KS., where I met my wife, had two kids, got a master's degree and bought a house. But teaching had always been an interest, too, so I quit the paper and spent 10 years teaching photography at Wichita State University. I remember first thinking about teaching in Miss Beam's history class. The ability to inspire and perhaps influence someone's life was fascinating.

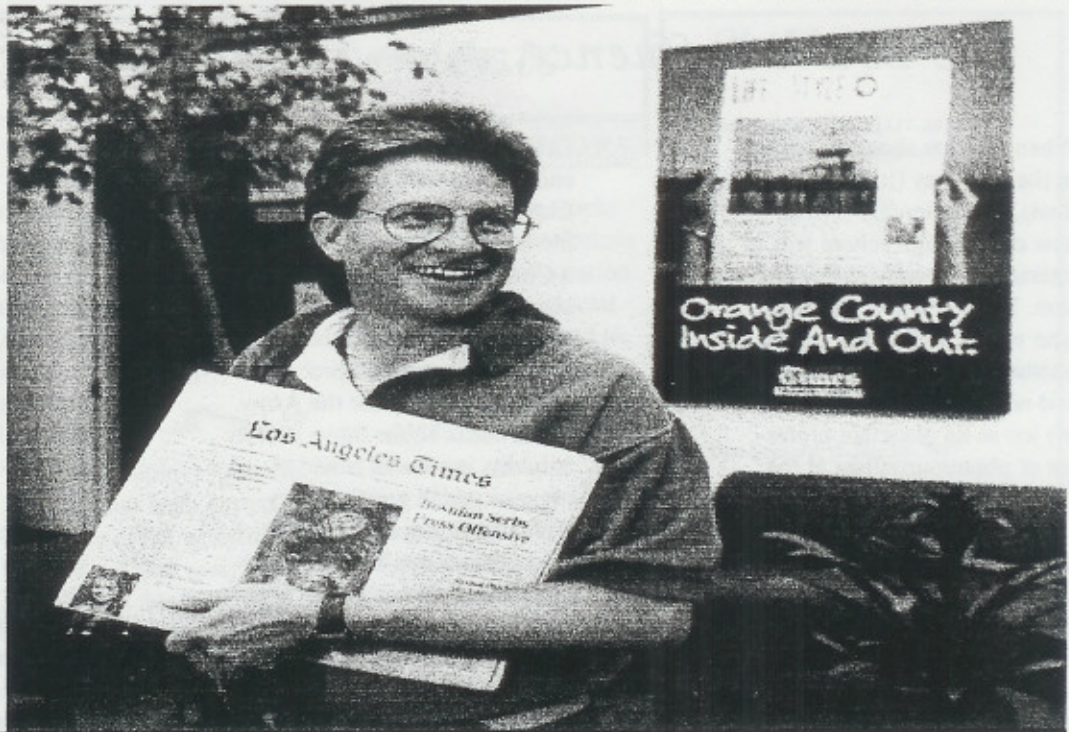

I returned to Berlin in 1982 as part of a honeymoon trip and was surprised at some of the changes 11 years after my graduation. The open-air Europa Center downtown no longer had an ice skating rink or those ice cream stands shaped like Igloos. The Center had been enclosed with a trendy multi-level restaurant. KaDaWe was still a magnificent store, and luckily you could still buy a Currywurst at the Wittenberg Platz U-Bahn station. The Berlin Brigade commissary and PX were all new. On the day we arrived, the Volksfest was in full swing behind the AYA and that brought back many pleasant memories.

Like many of you, I get nostalgic thinking about the high school years we proudly spent in Berlin. I gush about the city a lot. But I credit my BAHS experience for providing the nucleus for my professional life, and I have no regrets tying the past to the present. In 1995,

BAHS cont'd

I spent eight weeks at *National Geographic* in Washington, D. C. Accomplishments like those were just dreams when I stood on the sidelines at Berlin football games shooting photos. That little dark-room on the top floor of BAHS served its purpose well.

It Won't Be German!

Here it is – the latest news from Europe!

The News Standard has received this bulletin fresh from our Brussels based News Service....

The European Union commissioners have announced that agreement has been reached to adopt English as the preferred language for European communications, rather than German, which was the other possibility. As part of the negotiations, Her Majesty's Government conceded that English spelling had some room for improvement and has accepted a five-year phased plan for what will be known as EuroEnglish (Euro for short). In the first year, "s" will be used instead of the soft "c".

Sertainly, sivil servants will resieve this news with joy. Also, the hard "c" will be replaced with "k". Not only will this klear up konfusion, but typewriters kan have one less letter. There will be growing publik enthusiasm in the sekond year, when the troublesome "ph" will be replaced by "f". This will make words like "fotograf" 20 per sent shorter. In the third year, publik akseptanse of the new spelling kan be expekted to reach the stage where more komplikated changes are possible.

Governments will enkourage the removal of double letters, which have always ben a deterrent to akurate speling. Also, al wil agre that the horrible mes of silent "e"s in the languag is disgrasful, and they would go. By the fourth year, peopl wil be reseptiv to steps such as replasing "th" by "z" and "w" by v. During ze fifz year, ze unesesary "o" kan be dropd from vords kontaining "ou", and similar changes vud of kors be aplid to ozer kombinations of leters. After zis fifz yer, ve vil hav a reli sensibl riten styl. Zer vil be no mor trubls or difikultis and evrivun vil find it ezi tu understand ech ozer.

Ze drem vil finali kum tru.
